**Activity Report: Classroom Debate on "Impact of Technology and Challenges for Engineers"**

**Course Coordinator:** Dr. Abhijeet B. Vante

**Course:** Entrepreneurship Development (B. Tech Mechanical Engineering)

**Date:** 06/09/2024

**Venue:** F88

A classroom debate was organized for B. Tech Mechanical Engineering students under the *Entrepreneurship Development* course, facilitated by Dr. Abhijeet B. Vante. The debate focused on the topic "Impact of Technology and Challenges for Engineers," encouraging students to explore and critically analyze the evolving role of technology in engineering careers.

**Objective:**

The activity aimed to:

- Enhance students' understanding of how technology impacts the engineering profession.
- Stimulate discussion on the challenges engineers face in the modern, tech-driven landscape.
- Foster innovative thinking and entrepreneurial mindset among students.

**Key Highlights:**

- The debate featured two teams, each presenting arguments on how technology has transformed engineering fields, as well as the hurdles engineers must navigate, such as rapid technological advancements, ethical concerns, and the need for continuous skill development.
- Students demonstrated strong research skills, critical thinking, and effective communication, with both sides engaging in constructive discussions and counter-arguments.
- Dr. Abhijeet B. Vante provided valuable insights, linking the discussion to entrepreneurial opportunities and challenges in the engineering domain.

**Outcome:**

The activity was successful in deepening students' understanding of the intersection between technology, engineering, and entrepreneurship. It encouraged students to think critically

about their future roles in a tech-centric world and the skills required to overcome emerging challenges.

The debate concluded with a feedback session, where students expressed appreciation for the opportunity to explore the topic in depth and engage in intellectual discourse.

**Conclusion:**

The debate was a valuable learning experience for all participants, contributing to both their technical and entrepreneurial growth, aligning with the objectives of the *Entrepreneurship Development* course.
