Name of the Program: Electronics & Telecommunication Engineering
Program Code: 627004
Name of the Course: Wireless Sensor Networks   **Course Code: BTETOE703A**
Class: Final Year

Innovative Learning

Five minute paper Activity

Date:- 07/09/2025
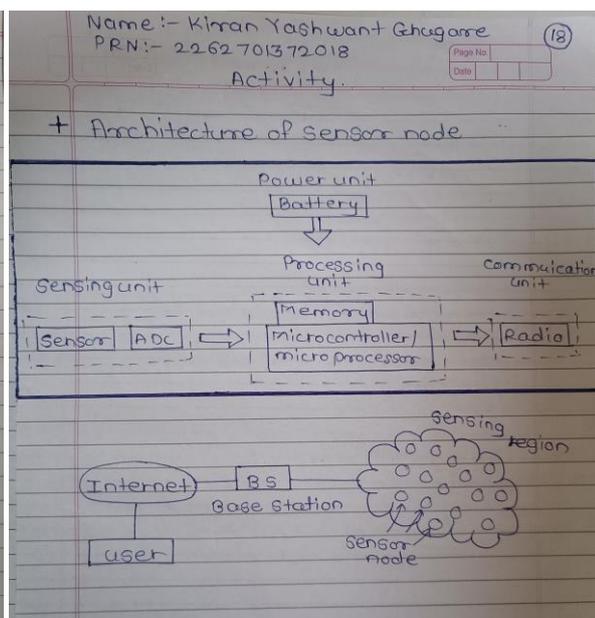

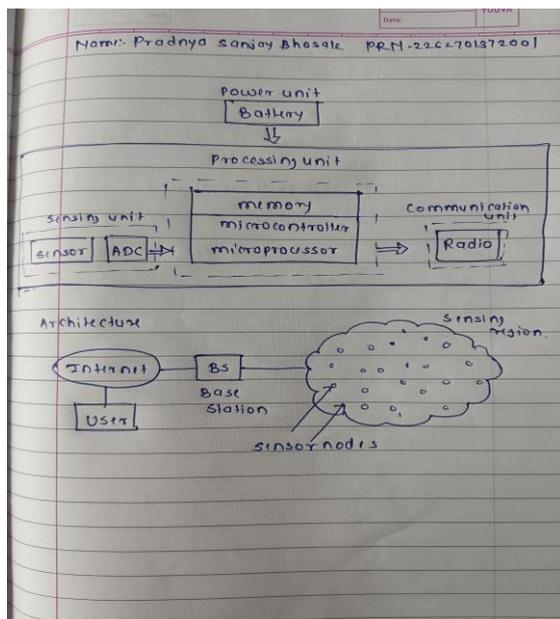

Time:- 11.30 to 12.30 pm

Number of students:- 65

Details:-

The five-Minute Paper is a quick and effective classroom assessment technique that encourages students to reflect on their learning. At the end of a lesson or session, students are given one minute to write down responses. This activity helps students consolidate their understanding while giving instructors immediate feedback on areas that may need further clarification. It fosters active engagement, encourages critical thinking, and provides valuable insights for both students and teachers to enhance the learning process.

Five minutes are given to students for drawing architecture of sensor node and upload it to Google Classroom.

Topic:- Architecture of sensor node in Wireless Sensor Networks

Dr. Mane S. V. (Course Coordinator)
